Nazmul Prodhan	He never skipped any of the meetings, he was always active helped us by providing new ideas, and one of the hard-working members of our group	He always did his work on time and always finished his tasks before the deadline	His quality of work is excellent as he used to provide vital information for our team which later helped us to progress and he also used to do his work on time.	He was the one who always provided us with some ideas to work with. He completed the Affinity diagram by himself and also provided the Data Analysis Process for our project. He also used to provide guidelines when we needed them. Our data collection process which was Contextual inquiries was also selected by him.	98
Taposh Das	He also never skipped any of our meetings. He was the one who always helped us by providing information while we were late in class.	He always did his work on time and always finished his tasks before the deadline	His quality of work is also excellent because he was one of the main idea generators of our group. And used to finish his work on time.	He used to provide us with many innovative ideas. He is the man behind creating the scenario in our project report. With the help of Jubayer he also managed to create a beautiful storyboard for our project.	97

Md Tarifuzzaman	He sometimes missed some classes but never missed any of the meetings. Even though he missed some of the classes but always collected the regular notes and project updates regularly	He always did his work on time and always finished his tasks just before the deadline. He is a little bit lazy but it's ok because he always finishes his tasks on time	His quality of work is also excellent. He used to handle his tasks with great effort.	He always used to provide us with the best insights and downgrade of our ideas. He also used to provide us with solutions for the side effects of our ideas. He manages to create a beautiful user persona for our project by analyzing the data and Affinity Diagram.	95
Md. Jubayer	Although he was not able to attend a few meetings due to some complications but I believe in his dedication. With a lot of complications, he always provided us with new ideas and also did all the tasks on time.	Most of the time he finished his work but sometimes he could not manage to work on time. But when this happened he used to inform us of the reason and finished the work as soon as possible	His quality of work is good but I believe he was not able to provide his best due to some complications.	He helped me with writing the first section of our project report. He also helped Taposh for creating the storyboard. He also provided many vital ideas for our project which later on used in developing our system.	92
Yamin Hossain	I never missed any of the meetings. I used to arrange my teammates for the meeting sessions. I used to collect all the missing information from different sources even from our madam (by sending her mail) to keep our project running and to help my teammate to get going.	I have always done my work on time. Even when some of my teammates were lagging behind I used to help them. I lead my team at a crucial time. I arranged all the members for our team.	I think I have done a quality job for my team. From the very beginning of our group formation by guiding, assigning them to different works, and by providing necessary direction I always tried to help them.	I created all the Research and Interview questions for our team projects. Also created 1 persona for our project. I also wrote the first section of the project report with the help of Jubayer and wrote the second section of the project report by myself. I always provided ideas and insight for our team project and helped our team to decide the possible system that would be suitable for our project.	99

PART 2 – Final Comments: *Do you feel that you team worked effectively together? What do you think contributed to the success/failure of your group work? Do you have any comments or concerns about this project? (please write something in this area to receive credit)*

Answer:

Yes, I think our team worked effectively together. The main reason for this success is we are all friends. We have known each other from the very beginning of our university life and share the same types of thoughts. I think together we will make our project successful inshallah!

PART 3 – Anything that I need to know? *Group dynamics, problems, etc...* (please write something in this area to receive credit)

Actually, I believe all of our teammates are so skilled and they are trying very hard to make our project successful. Sometimes it seems like we are lagging behind such as submitting tasks by the deadline. The main reason behind this all of us are in the final year of our university life. Managing a proper time is so difficult for us as we have to handle many other ongoing projects for our different courses and I also think that our respected madam is also aware of that. But we will do our best and make our project successful.
