				<i>Ma'am it is tough to write who leads on a topic, what we have done is: on a topic we all express our ideas/thoughts and then we picked 1 which most of we like or combine some of them.</i>

Team Member (do not list yourself)	Would you work with this Team member again?	Overall comments & Comments for Your Team Members (to be shared with your teammates)
<i>Ex) Joe Smith</i>	<i>Ex) yes, but with hesitation because....</i>	<i>Ex) You were super helpful, would work with you again! Next time, be more communicative with your team and respond to emails. Be sure to edit your work carefully.</i>
Mahmudul Hasan Bipul	Yes, without any hesitation.	You are supper helpful; I never fund a task assigned to you but you didn't complete on time, I would like to work with you again but please try to stay the entire meeting or working schedule.
Eashrat Jahan	Yes, but with hesitation because she prefers late-night meeting and working schedule, where I am an early bard.	As a team member you are awesome, you did all of you work, sometimes you the group meeting, you have done all the work in time but again try to manage time for group meeting/work except late-night.
Shah Newaz Aziz	Confused, if I judge him by only this project, sometimes he missed working schedule and meeting as well.	Your working ability is great, you can do a large amount of work within a short time with maintaining the quality but you have to take care of the schedule & deadline my friend.

PART 2 – Final Comments: *Do you feel that you team worked effectively together? What do you think contributed to the success/failure of your group work? Do you have any comments or concerns about this project? (please write something in this area to receive credit)*

Yes, if I consider the overall scenario, our team worked effectively together, but in 1 or 2 schedule it happened that it was not that effective because of absence, the work which may take 1 day but we need to continue it in the second day. But overall, it was effective & efficient enough.

Our each and every members are really skilled in specific filed/topic. So it becomes very easy to work with them, sometimes it happened that we distributed the task & everyone worked seriously & it was completed within a very short time that we did not even thought.

Our primary research is really very limited, if we could collect the data from a large number of students, mostly more diversified data like students from a rural area as well as students from the city then we will find the real overall need of the student, which type of problem they face in their homework.

PART 3 – Anything that I need to know? *Group dynamics, problems, etc... (please write something in this area to receive credit)*

All the members from our team are really good & skilled, so what happened is, someone is doing a fulltime job, someone part-time job or other thing, it may sound funny but it becomes tough to find a meeting time when we all are free and the time is suitable for all, because of the job responsibility, but still we manage and done the job.
