PART 2 – Final Comments: *Do you feel that you team worked effectively together? What do you think contributed to the success/failure of your group work? Do you have any comments or concerns about this project? (please write something in this area to receive credit)*

Overall, our team collaborated effectively. However, occasional absences compromised our efficiency on a few occasions. In instances where a task took longer than expected, we were still able to complete it satisfactorily.
Each team member has valuable expertise in specific areas, which facilitated smooth collaboration. We distributed tasks effectively, and everyone contributed their best effort, which led to unexpectedly quick task completion.
Our primary research scope is limited. We would need to collect data from a wider range of students, including those from rural and urban areas, to gain a more comprehensive understanding of students' genuine needs and challenges with homework.

PART 3 – Anything that I need to know? *Group dynamics, problems, etc… (please write something in this area to receive credit)*

Working well in a group is important. Sometimes, people might not communicate well or disagree. To make groups work better, encourage everyone to talk and focus on common goals.
