PART 2 – Final Comments: *Do you feel that you team worked effectively together? What do you think contributed to the success/failure of your group work? Do you have any comments or concerns about this project? (please write something in this area to receive credit)*

I am pleased with our team's overall performance in improving the user experience on the e-commerce platform. Effective communication, efficient teamwork, and a common commitment to fulfilling deadlines were all present. Nonetheless, my primary worry is making sure we meet the deadline for our project's completion. Although we did a great job working together, we could have done a better job allocating tasks to optimize our workflows. Sometimes misunderstandings may have been avoided with clearer documentation. In spite of these things, I am proud of what we have accomplished and think the knowledge we have received will be helpful for our future work together.

PART 3 – Anything that I need to know? *Group dynamics, problems, etc… (please write something in this area to receive credit)*

Positive group dynamics fostered creativity and productivity, with strong mutual regard and good communication. Our group didn't encounter any major problems overall. But sometimes, as final-year students, we had to meet deadlines, which meant that some things had to be finished quickly. In spite of this obstacle, our cooperative endeavors persisted.
