PART 2 – Final Comments: *Do you feel that you team worked effectively together? What do you think contributed to the success/failure of your group work? Do you have any comments or concerns about this project? (please write something in this area to receive credit)*

I think my team worked very effectively throughout the whole project. We learned many different things together and faced challenges that we have never faced. Mainly our on time work delivery made the research possible. I have high expectations for a conference paper from this project.

PART 3 – Anything that I need to know? *Group dynamics, problems, etc… (please write something in this area to receive credit)*

It would be awesome if we actually got to learn the practical way of the Research methods on field. It would make the theories more sense and a 100% outcome of becoming a researcher.
